Wherever you go

At home, across the country, and around the world—the power of **Blue** is with you.

Locally, our expansive network is built on strong relationships with providers, hospitals, and specialists.

Across the United States, you can see in-network providers anywhere in the country with the BlueCard® program.

Around the world, you can get care in nearly 200 countries and territories with the Blue Cross Blue Shield Global Core program.

We're in
your corner—
wherever that
may be.

Care where and when you need it

Our purpose is to improve customers’ lives by making healthcare work better. One of the main ways we do that is by giving you access to care when and where you need it.

Network	Backed by the Blue Cross Blue Shield Association, Premera Blue Cross has the largest provider network in the country. More than 90% of doctors and hospitals nationwide are in our broadest network, so it’s easy to get high-quality care at the best possible price.
Primary care	In a recent study, over one-third of Americans reported having trouble finding a doctor within the past three years.* To address the doctor shortage, Premera is investing in educational programs to increase the number of future primary care providers.
Virtual care	With so many care options, you can get treatment by phone, text, or video wherever you go and whenever you need it:

Primary care	Urgent care	Mental health care	Specialty care

Whatever kind of care you need

You have many ways to get quality care.

24-Hour NurseLine (\$0)	Call the free 24-Hour NurseLine when you want advice about a health concern. You can discuss your symptoms with a registered nurse and find out the best way to receive care. The number is available on the back of your member ID card and in the Premera mobile app.
Virtual care (\$0–\$)	Avoid the hassle, wait, and cost of visiting a provider in person by receiving care from in-network providers, therapists, and other specialists—on the go or from the comfort of home. Sign in to the Premera mobile app to view virtual care services available under your plan on the Find Care landing page.
Office visit (\$)	Visit a provider’s office to get examinations, x-rays, lab work, and other in-person medical services.
Urgent care (\$\$)	Get care for conditions or illnesses like ear infections, the flu, sprains, or other minor injuries.
ER (\$\$\$)	Go to the closest emergency room for immediate care for serious or life-threatening conditions like severe abdominal pain, shortness of breath, sudden numbness, loss of consciousness, or broken bones.

Health support that meets your needs

Some health issues aren't simple.

If you find that you need help with a chronic condition, illness, or managing a hospitalization, personal health support clinicians are available to provide assistance based on your needs.

When you work with **Personal Health Support**, you'll be better able to do the following:

- Manage a condition, such as asthma, diabetes, or heart disease
- Take care of yourself or a loved one to prevent readmission after a hospital stay
- Ask the right questions about an illness or procedure

Current member? Connect with a Personal Health Support clinician by calling **888-742-1479**.

Access to all levels of mental health care

Sometimes it's not a physical ailment that disrupts our lives.

We may find ourselves unable to shake feelings of sadness, exhaustion, or anger. We may rely too much on substances, such as alcohol, to get us through the day. In fact, the National Alliance on Mental Illness (NAMI) reports that 1 in 5 U.S. adults and 1 in 6 U.S. youths ages 6–17 experience mental illness each year. And, tragically, suicide is the second or third leading cause of death among people aged 10–34.*

Every Premera plan covers mental health visits the same as a standard office visit with your primary care provider. There are no visit limits. And you have many choices for getting care, so you can find the type of care that fits your life and your needs, whether that's a virtual visit, an in-person appointment, or an in-patient stay.

“ It's important that we all have people in our lives who we feel we can be open and honest with. Having that support system plays a vital role in working through our thoughts and feelings. But to do that, there needs to be a change in how we think about this topic. We can end the stigma around mental health issues and forge a new path forward for all of us, but only when we recognize that we're all in this together. ”

Dr. Josephine Young, Premera medical director

You'll get no-cost preventive care

When you get routine preventive care from an in-network provider, you don't pay for it—your health plan does.

Under the Affordable Care Act, all health plans cover certain preventive services with no out-of-pocket cost to you. These include the following:

- Routine wellness exams
- Screenings and tests
- Vaccinations
- Medications and supplements
- Reproductive and women's health

Note: This is not a complete list of covered preventive services. Services within the above categories may have age, risk, and other requirements to be considered preventive. Go to premera.com/visitor/care-essentials for more information about preventive care. Current members can sign in at premera.com for specific benefits covered by their plan.

Check with your primary care provider

Understand Preventive Care Visits

According to the Centers for Disease Control and Prevention, preventive care services could save over 100,000 lives in the United States every year.*

Simplify your life with virtual care

Whether you are seeking primary care or mental health care, our virtual care services prioritize your needs and provide first-rate care.

Illness can occur at any time. So why wait for office hours to have your medical concerns addressed? Providers are just a few taps away, ready to offer you the care you need. Avoid the wait and cost of in-person care with a virtual care visit instead.

To find out more about the virtual care options available to you, sign in to your account at premera.com or reach out to your HR representative.

Getting started with your pharmacy benefit

With Premera Blue Cross pharmacy benefits, our goal is to ensure your plan is simple to understand and your medications are easy to manage.

Here's some information to get you started.

Find a medication

Each formulary drug list covers thousands of medications. To check if a medication is covered by your plan and find out if there are any restrictions:

- Visit premera.com/visitor/covered-drugs
- Sign in to your account at premera.com

Find a pharmacy

Pharmacies in your plan network can be found through the **Find a Doctor** tool on premera.com.

Explore more

The online [Pharmacy Benefit Guide](https://premera.com/pharmacy-benefit-guide) at premera.com/pharmacy-benefit-guide has additional need-to-know information, including how prescription pricing works.

Terms to know

Formulary

A list of drugs covered by a prescription drug plan. Also called a formulary drug list.

Tier

Within a formulary drug list, medications fall into categories or levels, each with a different copay or coinsurance.

Copay

A set fee you pay when you get prescriptions filled. The copay may vary depending on which tier the drugs are in.

Coinsurance

Your share of the cost of medication. For example, if your plan pays 90%, your coinsurance (the part you pay) is the remaining 10%.

Save on prescriptions

Keep more money in your wallet by using these easy tips.

Current member?

Sign in to your account on premera.com to manage your prescriptions:

- Check which prescriptions are covered
- Compare costs
- Find in-network pharmacies
- Order and refill prescriptions

The high cost of medications is a major factor in increasing healthcare costs. We work to keep your out-of-pocket costs as low as possible by providing access to a broad retail pharmacy network with competitive rates.

How you can lower your costs on prescriptions:

Choose generic drugs. Generic drugs are the same as brand drugs, but they cost less. Be sure to ask your provider if a generic drug is available the next time you need a new prescription.

Choose biosimilars. A biosimilar is a biologic medication. It is highly similar to a biologic medication that has already been approved by the U.S. Food and Drug Administration. Be sure to ask your provider if a biosimilar is available the next time you need a new prescription.

Get prescriptions delivered. Mail order is ideal for prescriptions you take regularly. You can save on prescriptions when you choose home delivery. This service is part of your pharmacy benefit. Visit the Pharmacy page on premera.com for information and order forms.

ER, urgent, or virtual care: When to go where

GET QUALITY CARE WHEN AND WHERE YOU NEED IT

Primary care provider, urgent care, virtual care, or emergency room? Premera Blue Cross health plan members have access to a variety of levels for care. To get the best care possible, and at the lowest cost to you, know which level to use and when. Visit premera.com/care-options.

24-Hour NurseLine:

If you need advice, quick answers, or help deciding if you need immediate care, call the free Premera 24-Hour NurseLine at the number on the back of your ID card to speak with a registered nurse.

Virtual care:

Get care for a variety of needs from a healthcare provider via phone, text, or video, when and where you need it. Go to premera.com/virtual-care and sign in to your account to find all your virtual care options.

Urgent care:

Use the Find a Doctor tool to locate an urgent care center close to your home or current location. Urgent care clinics offer care for health concerns like ear infections, flu symptoms, or injuries. You can also use the Find a Doctor tool on the go by downloading the Premera mobile app.

Urgent medical care in your home:

DispatchHealth is a convenient option for urgent in-home medical care with the same out-of-pocket cost as an urgent care visit. A care team will come to your home with everything needed to treat your illness or injury, 365 days a year from 8 a.m. to 10 p.m. Cost shares are collected at the time the of visit.

To learn what conditions DispatchHealth treats, and to find out if this care option is available near you, visit dispatchhealth.com or call **855-354-8961**.

Emergency room:

Emergency room visits cost the most and should be used for emergencies, such as severe abdominal pain, shortness of breath, sudden numbness, loss of consciousness, or significant injuries.

**If your condition is life- or disability-threatening,
call 911 or head to your nearest emergency room.**

DispatchHealth is available in 44 service areas across the country excluding Alaska. As DispatchHealth continues to expand, so will their service area.
